A Report on English Course Introduction

Last month I visited an English language course in Oxford. There were about twenty people in our group, including me.

The Quality of Teaching

To my mind, this course really increased my level of knowledge. We had very skilled and professional teachers. They provided us with high quality of education.

The Use of Modern Technological Equipment

In this course there were a lot of computers, laptops, projectors. It means that classes were modernly equipped. It is an important thing, because it makes learning more convenient and productive in many ways.

The Variability of Textbooks

We had a great variety of books. There were books on different English skills: writing, speaking, reading, as well as numerous grammar references.

Dining Facilities And The Convenience of The Timetable

The timetable was well compiled. We were not tired of difficult lessons, because they were followed by warm-ups. Unfortunately, dining facilities were the only thing, which made me upset. Certainly, you could bring something to eat, but we did not have long breaks, so if you were hungry, you could only grab something small.

Conclusion.

I can say that it was an exciting and informative course. The only suggestion to be made is the introduction of some dining facilities, because it was hard to spend so much time without normal food.
