---	----

I recently attended a two-month English language course. There were over hundred students enrolled to the course from several countries. The purpose of this report is to assess the good and bad points of the course.

- The quality of teaching

The teachers were quite good professionalists. They ~~gave us really valuable~~ were respectful during all the course. The teachers ~~were~~ gave us really valuable knowledge at every lesson. Moreover, their positive attitude helped students whose language development was not fast enough.

- The use of modern technological equipment

All the classrooms were equipped with up-to-date technologies. All students could use modern computers and laptops which made the process both entertaining and educational.

- The variability of textbooks.

I was really amazed by the different types of textbooks used during ^{the} course at our school. Every one could choose the textbook which suited his individual needs.

- Dining facilities

However, I could not enjoy the food in the canteen, because it was closed in the afternoon when we had classes.

- The convenience of the time table.

All the classes I attended were late in the evening. It was really inconvenient because I would rather prefer

to study early in the morning.

• Conclusion

I was really satisfied with the knowledge which the course gave me, but I want to suggest changing either canteen's working ~~hour~~ hours or the timetable. The school will benefit from expanding working hours and it will attract more students.
