A report for the Principal of  
an English language course.

I had been studying this particular course nearly three months. It would be my pleasure to name all of the advantages of it and to help to improve it.

First of all I am not only pleased, but also impressed with the quality of teaching. Teachers and ~~professor~~ professors mostly use unusual methods of teaching. For example, they use interactive games to present the information, instead of traditional lecturing.

As for the technological equipment, I would highly rate it as well. The teachers use interactive boards and projectors in order to give students an ability to learn and remember the information faster.

And that is why, I believe, there are not many textbooks used in this program. We only had one just for the group projects. For someone it might be a problem, but ~~as for me~~, I think it is a great opportunity to interact with the teacher and other students, and spending time developing your social skills.

Speaking of time I must say, one of the things I would like to be improved in this course is the schedule. The course starts right after ~~the~~ school, and I hardly make it one time.

It would be great as well to see some changes in dining facilities. The food is good, but the place is too small for the whole group, and the lunch time is rather uncomfortable.

I am looking forward to study this course (hopefully, improved) ~~ago~~ further.

with your student,
