Report

Introduction

The aim of this report is to evaluate the quality of "Gal.Languages" English language course and make suggestions if there is a need for improvement.

Teaching

The aforementioned ~~lang~~ school is renowned for its unconventional teaching methods which include self-education to the surprise of many students. However, after having completed the course, I came to the conclusion that the effectiveness of the methods should not be doubted.

Technological equipment

The usage of information technology changed the quality of teaching for the better. The interactive smartboards were installed in every classroom, despite not being needed in some of them, although that did not interfere with the learning process.

Textbooks

The variability of textbooks is something "Gal.Languages" should be proud of. The ~~lib~~ library ~~help~~ helped students a lot, playing a vital role in educational process of the school. Another advantage is that students who opted for different schoolbooks can be taught together simultaneously.

Dining facilities

Overall, the facilities caused no dissatisfaction, although I, along with other students, noticed that the ~~staff~~ canteen staff's attitude towards students was rather unfriendly, which led to the lack of desire to use the school's dining facilities.

Timetable

The schedule provided by the administration caused no trouble at first, but by the end of first week it was ~~also~~ clear that students would not be able to function and, therefore, study properly with a timetable that fails to cater for their both social and biological needs.

Conclusion

Despite minor drawbacks described above, "Gal. Languages" is a high-quality education centre. My only recommendation is to pay more attention to the organisation of the course.
